Powerful, versatile, lightweight, and fun, the Gorillatorch is a brilliant gift for the enthusiast: auto repair, home improvement, camping, and more!

JOBY gorillatorch™

The Gorillatorch, with its flexible legs and magnetic feet, secures to virtually any surface, allowing you to cast a bright, focused beam of light while keeping your hands free. The integrated dimmer switch allows you to adjust the intensity, up to 65 lumens, for use in any scenario. Pop it under the car hood to check the engine, attach it to the bedpost for lights-out reading, secure it to a tree branch to illuminate your campsite – or straighten the legs and use it as a hand-held while walking the dog. Your imagination is the only limit!

We care...we really do!

At Joby, we're obsessed with quality and innovation. We include a 1 year limited warranty on all of our products and like to think we have the best customer service in the business.

With three types of interchangeable adapters, the Gorillamobile lends an extra hand to support your entire collection of mobile devices.

JOBY gorillamobile™

The Gorillamobile offers unparalleled tripod compatibility for your mobile devices, including phones, MP3 players, and cameras. Featuring flexible, wrappable legs with rubberized grips, the Gorillamobile attaches to any surface, for hands-free enjoyment of your mobile devices. Use it on a plane, in the car, or on a hike – movie-watching, talking, and photo-taking have never been easier!

Includes **4**
interchangeable adapters:

Custom Engineered Suction Cup even works on soft-touch rubberized finishes!

Two Removable High-Bond Adhesive Clips

Universal Camera Adapter (1/4" tripod screw)

The Gorillamobile supports 11.5 ounces (325g) when paired with the camera adapter and 7.1 ounces (200g) when paired with the adhesive clips and the suction cup.

The original...

JOBY® gorillapod®

Get the perfect picture!®

The Joby Gorillapod is the lightest and most versatile camera tripod available today. Featuring over two dozen flexible leg joints that bend and rotate, the Gorillapod will firmly secure your compact digital camera to virtually any surface. Compact and lightweight, the Gorillapod is the ideal camera accessory for photographers on-the-go. Wrap it around a tree, perch it on a rock, or clamp it on a chair – the Gorillapod can handle just about any environment!

In an effort to preserve resources, most Joby products are available in a choice of standard retail packaging or eco-friendly minimal packaging.

The original Gorillapod is designed for compact digital cameras weighing up to 11.5 ounces (325g) and is available in gray, red, yellow, green, blue, pink, and orange.

A bigger and stronger version of the original, the Gorillapod SLR supports lightweight SLR cameras and camcorders in any environment.

JOBY® gorillapod SLR™

Featuring sturdy, prehensile legs and rubberized grips, the Gorillapod SLR helps you get a steady shot virtually anywhere, and the quick-release plate makes setup a snap. Still compact enough to bring with you, the Gorillapod SLR is the perfect companion for your next great adventure.

The Gorillapod SLR's quick-release clip features a bubble level to ensure a level shot.

The Gorillapod SLR is for prosumer, SLR, and compact video camcorders weighing up to 1.75lbs (800g).

Keep your telephoto lens steady—even when you're on the go!

JOBY® gorillapod SLR-ZOOM™

Designed with the serious photographer in mind, the Gorillapod SLR-Zoom is built to support SLR cameras with telephoto lenses and video cameras. It is sturdy, compact and flexible, which makes it a must-have for any pro's gear bag.

The Gorillapod SLR-Zoom can be used with or without a professional tripod head and supports up to 6.6 lbs (3 kg).

Add even more flexibility to your Gorillapod!

JOBY ballhead

for gorillapod
SLR-ZOOM™

The Joby Ballhead features a precision-machined aluminum housing and a durable, all-metal ball, giving you the ability to smoothly tilt and pan your camera, while still enjoying the versatility and unwavering support of a Gorillapod on virtually any surface! A slim-line quick release clip with bubble level stays connected to your camera and snaps into the Ballhead for effortless, instant setup and perfectly level shots every time!

The Ballhead is available on its own, or bundled with the Gorillapod SLR-Zoom.

Integrated bubble level helps ensure a level shot.

While optimized for use with the Gorillapod SLR-Zoom, the Joby Ballhead has a 3/8" bottom thread and an included 1/4" adapter screw, which allows it to be used atop virtually any tripod. It supports up to 6.6lbs (3kg).

Supports over
11
pounds!
(5kg)

The Gorillapod Focus is durable and strong enough to meet the demands of photo professionals.

Machined aluminum sockets offer incredible flexibility and ensure a rock-solid hold in almost any environment.

Designed with the professional in mind, the Gorillapod Focus is the strongest, largest Gorillapod yet! Strong enough to support SLR cameras with larger telephoto lenses as well as digital video cameras, the Gorillapod Focus provides the stability of a professional tripod at a fraction of the size and weight. Use it with or without your own professional tripod head.

JOBY gorillapod ACCESSORIES
