

HLX-H1 Extreme Battery

Replacement for the Olympus BLH-1
7.4V | 2000mAh | 14.8Wh

Compatible with:
E-M1 Mark II & E-M1X

Features

- Ultra-high capacity
- EXTRA durability in extreme conditions
- Long lasting due to higher capacity
- High quality Li-ion cells ensure extended life cycle, performance & safety
- High energy density ratio
- Good voltage stability offering longer camera running time
- Capable of more than 500 charge/discharge cycles
- 3m drop proof
- Shock absorbing construction

Performance Testing

We put the HLX-H1 to the test to see just how much better it performed compared to the Olympus BLH-1.

Camera used: OM-D E-M1 Mark II.
The camera was set to take a shot every 15 seconds. Shooting continued until the camera shut down. In a second test the camera was run down in video mode.

RESULTS

The HLX-H1 battery out-performed the BLH-1 battery by 21% on shots & 15% on video, proving once again that the Hähnel Extreme Batteries are superior to anything similar in the market!
