What's New

Top-up Charge

- The mAh reading on the LCD display shows how much capacity (mAh) has been added during charging*
- Great for a quick top-up charge - enough charge in 15 mins
- 15 mins charge
= 300 mAh
= approximately 150 photos

**It does not show what capacity is already in the battery*

What's New

AC/DC Adaptor

- New design AC/DC adaptor
- PROCUBE2 has a fixed socket which the plate will plug into automatically
- 11% reduction in volume
- 20% reduction in weight
- Rating changed from 1200mA to 1500mA
