

Kenro Standard Monopod Kit (Model 301)

The new Kenro Monopod Kit 301 is manufactured from Titanium Alloy. It offers the photographer the opportunity for fast set ups, and the ability to combine the quality and strength of a stable camera support in situations where it is not possible to use a normal camera tripod.

Monopods are ideal for sports, nature, mountaineering and general outdoor photography where weight and compactness are of paramount importance.

Kit includes: Monopod, single action ball head, hand strap, carry case, warranty and user instructions.
